COETZER OPTICAL SYSTEMS (Pty) Ltd

12-Port Fiber Optic Terminal Box Manufacturer

Overview

Choosing the right terminal box ensures clean fiber management, easy maintenance, and protection of delicate fiber splices.

Key Takeaways

CRXCONEC, Spring Optical, Techlogiks, and SZYHT are notable manufacturers of 12-port fiber optic terminal boxes, offering DIN rail, pre-terminated, and customizable solutions.Key Manufacturers and Products

CRXCONEC offers a 12-port DIN rail fiber termination box designed for compact spaces and mini-network terminal distributions. It supports fiber cables of 8–10mm, accommodates various adapter types (LC duplex, SC simplex, ST, FC, E2000), and features a flip-up design for easy maintenance. The boxes are RoHS and REACH compliant, and CRXCONEC provides ODM services and branding customization . Spring Optical provides a 12-port pre-terminated fiber distribution box, suitable as a sub-box terminal in fully pre-connected solutions. It integrates fiber splicing, splitting, storage, and cable management in a single enclosure. The box supports plug-and-play installation, multiple mounting methods (pole, wall, cable), and is made from durable PP+GF material with IP68 protection against water, dust, and aging . Techlogiks manufactures DIN rail-mounted 12-port fiber optic terminal boxes for mini-network terminal distribution. These boxes are compatible with SC and LC adapters and are designed for connecting optical cables, patch cores, or pigtails efficiently . SZYHT offers 12-port fiber optic terminal boxes suitable for various optical fiber systems, particularly for mini-network terminal distribution. These boxes support patch cords or pigtails and provide reliable fiber management and connectivity .

Features to Consider
• Mounting Type: DIN rail or wall-mounted options for space efficiency.

• Adapter Compatibility: LC, SC, ST, FC, E2000, or duplex/single configurations.

• Environmental Protection: IP-rated enclosures for dust, water, and aging resistance.

• Customization: Pre-terminated solutions, port configurations, and branding options.

• Compliance: RoHS and REACH standards for safety and environmental responsibility. These manufacturers provide versatile solutions for FTTH, enterprise networks, and other fiber optic deployments, allowing for both standard and customized configurations to meet specific network requirements.
