Key Takeaways

Fibernet operates Slovenia's largest and most advanced fiber optic cable manufacturing facility.

Overview of Fibernet

Fibernet's FiberOptic business unit is recognized as the largest and most advanced fiber optic manufacturing operation in the region . The company specializes in producing a complete range of fiber optic assemblies, including patch cables, termination cables, pigtails, end cables, and special-purpose cable systems . Their products serve private and public networks, industrial applications, and customer-specific in-house or hybrid cabling systems .

Production Capabilities

The factory employs a semi-automated assembly line, integrating automation wherever possible to maintain consistent quality . Polishing machines used in production are sourced from the Swiss company Huber+Suhner, ensuring high precision. Fibernet manufactures approximately 23,000 fiber optic connectors per month, reflecting significant production capacity . The facility adheres to Swiss quality standards, with annual inspections and certifications to maintain compliance .

Regional Impact and Projects

Fibernet actively participates in FTTx projects across the region and supplies materials and systems to national telecom operators such as Telekom Slovenije, BH Telekom, and Telekom Macedonia . Their expertise extends to designing fiber optic systems and providing comprehensive fiber management solutions .

Additional Capabilities

Beyond fiber optic manufacturing, Fibernet operates in multiple business segments, including secure power and cooling solutions, data center infrastructure, and renewable energy projects, integrating their core competencies under the DCE brand for efficient infrastructure solutions .

Fibernet's combination of high production volume, advanced automation, and regional project involvement establishes it as Slovenia's leading fiber optic cable manufacturer, making it a key player in the telecommunications and industrial sectors .
