

Australian distributor of 100G optical electric hybrid cable

Overview

Fiber2c is a leading provider of transceivers and high-speed cabling and ranks among Australia's top innovators in data centre and networking hardware. The Extreme Networks Compatible QSFP28 Active Optical Cables are fibre assemblies with QSFP28 connectors designed for direct-attach connections over Multi-Mode Fiber (MMF). As part of the global Hexatronic Group, we leverage international partnerships and the backing of a world-class fibre optic company to deliver unparalleled services. Our Norden Hybrid Cable has copper and fibre connectivity in a single cable to safely deliver low-voltage power and data over long distances to remote locations where standard power is unavailable or too costly to install. This cable is constructed with 3 core 2.
