

Ethiopia Wall-Mounted Distribution Box 8-Core

Overview

Commercial Distribution Box Supplier & Suppliers for Ethiopia Heavy Duty XL-21 Low-Voltage IP66 Distribution Box for Ethiopian Mines Features a robust hybrid.

Key Takeaways

An 8-core wall-mounted distribution box in Ethiopia is available from local suppliers and manufacturers, offering durable, high-quality solutions for fiber and electrical distribution. Product Overview

The 8-core wall-mounted distribution box is designed for efficient and reliable management of electrical or fiber connections. It typically features a high-strength ABS construction, providing IP65-rated waterproofing, dust resistance, and anti-aging performance, making it suitable for both indoor and outdoor wall mounting. The box is divided into sections for cable entry, fixed splicing, fiber distribution, and butterfly cable storage, ensuring organized and interference-free routing. Flip-style trays allow for easy expansion and maintenance, supporting up to 8 cores with potential for future upgrades.

Key Features

- Material: Durable ABS with anti-aging and weather-resistant properties
- Capacity: 8-core fiber or electrical connections, with modular trays for expansion
- Mounting: Wall-mounted, suitable for indoor or outdoor installation

- Protection: IP65 rating ensures waterproof and dustproof performance
 - Components Included: Splice tray, splitter bracket, cable entry grounding unit, butterfly cable fixing unit, sealing components, and line loop components
- Local Suppliers in Ethiopia
- MKAK Trading PLC: Based in Addis Ababa, MKAK Trading is a wholesale distributor of industrial electrical equipment, including distribution boxes and related electrical supplies. They provide both residential and commercial solutions and can facilitate direct procurement .
 - Bule Electric: Offers advanced distribution systems, including panels and boards suitable for residential, commercial, and industrial power management .
 - Alibaba Wholesale Options: International suppliers also provide 8-core wall-mounted distribution boxes with shipping options to Ethiopia, suitable for bulk orders .
 - Bahra Electric: Provides distribution boards and enclosures that meet IEC 61439 standards, ensuring reliable circuit protection and durability for indoor and outdoor applications .

Considerations for Purchase

When sourcing an 8-core wall-mounted distribution box in Ethiopia, consider:

- Compliance with local electrical standards
- Durability for outdoor exposure
- Ease of installation and maintenance
- Availability of expansion trays for future upgrades
- Supplier reliability and warranty support These boxes are ideal for efficient electrical or fiber management, ensuring safety, scalability, and long-term performance in Ethiopian residential, commercial, or industrial installations.
