

Fiber Optic Terminal Box Reel Price

Overview

Amazon.com: Fiber Termination Box Fiber Optic Wall Mount Box with LC Couplers for Single Mode & Multimode Fiber Optic Cable. | Fiber Box Enclosure for MPOE'.

Key Takeaways

Fiber optic terminal box reels typically range from \$50 to \$500 or more, depending on type, port count, and cable length. Price Overview

The cost of a fiber optic terminal box or a reel in a box solution varies widely based on specifications and manufacturer. Standard wall-mounted or floor-mounted terminal boxes with 12 to 24 ports generally cost between \$50 and \$200 for basic models, while larger or specialized boxes with more ports, PLC splitters, or high-quality materials can reach \$300–\$500 or higher. Reel in a Box solutions, such as Corning's single-fiber tight-buffered cables, are designed for small-scale installations in data centers or wireless projects. Prices for these reels depend on fiber length, jacket type, and fiber count, with small reels (50–500 meters) typically ranging from \$100 to \$400 per reel.

Factors Affecting Price

- Port Count and Capacity: More ports or higher fiber density increases cost.
- Material and Build Quality: Boxes made of cold-rolled steel with flame-retardant coatings are more expensive than plastic enclosures.
- Cable Type: Single-mode vs. multimode, tight-buffered vs. loose-tube, and plenum-rated jackets affect pricing.

- **Brand and Warranty:** Premium brands like Corning or FS offer higher reliability and warranties, which can increase cost .

- **Accessories:** Inclusion of adapters (LC, SC, FC, ST), splitters, or mounting hardware can add to the price .

Purchasing Options

- **Online Retailers:** Amazon offers a variety of fiber termination and distribution boxes, suitable for small to medium installations .

- **Specialized Suppliers:** Fiberinthebox and FS provide professional-grade terminal boxes and reels with technical support and bulk purchasing options . For accurate pricing, it is recommended to check product specifications, port count, and cable length on supplier websites or request a quote from distributors, as prices fluctuate based on market demand and shipping.
