

Indian manufacturers of long-span cable trays

Overview

Designed for robustness in long-span applications, Adarsh Udyog make Cable Trays are available in various dimensions i.e.

Key Takeaways

Leading Indian manufacturers of long-span cable trays include KP Green Engineering, Ajay Industrial Corporation, India Electricals Syndicate, ELCON Group, and Sharda Cable Trays, offering ladder, perforated, and FRP types for industrial and commercial applications. Key Manufacturers and Offerings

KP Green Engineering is a premier supplier of industrial cable trays in India, specializing in long-span ladder and perforated trays. Their products are made from mild steel, pre-galvanized steel, and FRP, with customizable thickness (1.6–3mm), width (50–1200mm), length (2.5m, 3m, 6m), and side rail height (50–100mm) to support heavy cable loads and long spans. They provide complete support systems and accessories like bends, elbows, reducers, and clamps, suitable for manufacturing plants, data centers, refineries, substations, tunnels, and rooftop solar installations . Ajay Industrial Corporation Limited (AICL) manufactures perforated and ladder cable trays with lengths of 2.5–3 meters, widths from 25mm to 1500mm, and depths from 25mm to 150mm. Materials include HR sheet, GP sheet, Galvalume, stainless steel, and aluminum, with finishes like hot-dip galvanizing, powder coating, and self-finish options. Their trays are designed for ventilation, corrosion resistance, and long-term durability, making them suitable for industrial and commercial wiring . India Electricals Syndicate (IES), based in West Bengal, produces light, medium, and heavy-duty cable trays, including ladder and FRP types. They offer customized solutions for long-span installations and export to countries like Bangladesh, Nepal, South Africa, and Sri Lanka. Their products are fabricated from MS, GI, and aluminum sheets, with coatings such as galvanizing, powder coating, and anodizing . ELCON Group and Sharda Cable Trays Pvt Ltd are also notable manufacturers, providing ladder and perforated cable trays with a focus on high-quality fabrication, durability, and timely delivery. They cater to industrial electrical applications and offer accessories and customization options for long-span installations .

Considerations for Long-Span Cable Trays

- **Material Selection:** Mild steel, pre-galvanized steel, aluminum, or FRP depending on load, corrosion resistance, and environmental conditions.
- **Tray Type:** Ladder trays are preferred for heavy-duty, long-span applications; perforated trays allow ventilation and heat dissipation.
- **Customization:** Length, width, depth, and side rail height can be tailored to project requirements.
- **Support Systems:** Proper brackets, trapeze supports, and couplers are essential for maintaining structural integrity over long spans. These manufacturers provide ISO-certified, high-quality cable trays suitable for industrial, commercial, and infrastructure projects, ensuring safe and efficient cable management for long-span installations.
