

Industrial switch 12V 2A power supply with high temperature resistance

Overview

ALRS12V2R2AT is a highly efficient 25W single-output enclosed power supply with a 33mm low profile design. Equipped with a built-in long-life fan, this power supply can operate effectively at full load under temperatures ranging from -10°C to 60°C . Sturdy metal housing offers enhanced protection and durability. 8 volts DC ensures optimal device performance. The UltraTech WBXPSU2A12VT is a robust and reliable solution for supplying. [12V 2A Output]: The 12V Din Rail Power Supply offers a versatile 12V 2A output that allows for multiple applications, such as powering various industrial devices or equipment. Designed for 24/7 continuous operation our durable power supply series impress with precisely regulated output voltages, high. Are you looking for 12V power supply units (IP65/IP68) with a particularly high degree of protection?

Here you will find powerful and particularly robust 12V switched-mode power supply units (IP65/IP68) for harsh industrial environments. FEAS offers power supply units of different technologies as. The PES series is one of the latest entrants from NHP Power system in its line of state of the art power supplies made from UL94 V-0 approved raw material. It functions from a wide AC input range and at the same time accepts DC input voltage.
