

Ireland SFP Optical Module 10G

Overview

QSFPTEK 10G SFP+ transceiver module is a cost-effective choice, which is suitable for data center and campus network and etc.

Key Takeaways

10G SFP modules in Ireland are available in fiber and copper variants from brands like Cisco, Ubiquiti, Comnet, and Hikvision, supporting distances from 30 meters to over 120 kilometers depending on type and fiber grade.

Fiber Optic Modules:

- Cisco 10GBASE-SR/SW: Supports multimode fiber (MMF) with link lengths up to 300m on OM3 and 400m on OM4 fiber .
- Cisco 10GBASE-LRM: Designed for standard FDDI-grade MMF, supporting distances up to 220m .
- Comnet Optical SFPs: Available for multimode or single-mode fiber, with LC or SC connectors, supporting distances from 300 meters to 120 kilometers depending on wavelength and optical power budget .
- Ubiquiti UF-MM-10G: Multimode fiber SFP modules suitable for building or expanding network infrastructures .

Copper Modules:

- Cisco SFP-10G-T-X: SFP+ form factor with RJ-45 interface, compatible with CAT5e/CAT6A/CAT7 cables, supporting 100M/1G/10Gbps up to 30 meters, ideal for rack-to-rack connections .

- Comnet Copper SFPs: Provide electrical interfaces for short-range connections using copper cabling .

Key Features

- Hot-swappable: Most SFP+ modules can be installed or replaced without powering down the switch .
- MSA Compliant: Ensures interoperability across different vendors' equipment .
- Digital Optical Monitoring (DOM): Available on Cisco modules for real-time diagnostics .
- Connector Types: LC and SC for fiber; RJ-45 for copper modules .
- Industrial Ratings: Some Comnet modules are rated for harsh environments, suitable for industrial applications .

Considerations for Selection

- Distance Requirements: Choose multimode for short distances (up to 400m) and single-mode for long distances (up to 120km).
- Connector Compatibility: Ensure the SFP module matches the switch or media converter port type.
- Brand Compatibility: Cisco modules are optimized for Cisco switches, while Comnet and Ubiquiti modules may offer broader interoperability.
- Environmental Conditions: Industrial-rated modules are recommended for extreme temperature or outdoor deployments.

Suppliers in Ireland

- Hikvision UK & Ireland: Offers 10G SFP modules for transmission applications .
- Hunt Office: Stocks Cisco SFP-10G-T-X and other Cisco 10GBASE modules with nationwide delivery .
- KDElectronics: Supplies Ubiquiti 10G SFP LC modules in 2-pack options .
- ADI Global: Provides Comnet SFP modules for both fiber and copper applications . These options allow network engineers in Ireland to select 10G SFP modules tailored to their infrastructure, whether for data centers, enterprise networks, or industrial environments.
