

List of Pakistan Micro-Module Data Centers

Overview

Pakistan Data Centers Data Centers in Pakistan with map. List of available providers and facilities in Pakistan, including Colocation, Bare Metal Servers.

Key Takeaways

Pakistan hosts multiple data centers across major cities, including facilities suitable for micro-module deployments, with at least 22-30 operational centers from various providers. Overview

Pakistan's data center market includes 30 facilities from 34 operators, spread across key cities such as Karachi, Lahore, Islamabad, and Faisalabad . These centers offer a range of services including colocation, cloud hosting, bare metal servers, and IaaS, with many supporting modular or micro-module configurations for scalable deployments .

Notable Data Center Providers

Some of the top data center companies in Pakistan include:

- Neocloud Asia – Operates 22 strategically located facilities with state-of-the-art security, redundant systems, and low-latency connectivity .
- Servers.Expert Top 10 Providers – Lists leading data centers with high reliability and modern infrastructure across Pakistan .

- Other Operators – Multiple smaller operators provide micro-module or modular data center solutions suitable for rapid deployment and flexible scaling .

Key Features of Micro-Module Data Centers

- Compact and modular design for quick deployment and scalability.
- Redundant power and cooling systems to ensure uptime.
- High security measures including surveillance, access control, and fire suppression.
- Connectivity options for colocation, cloud, and hybrid IT solutions.
- Strategic city locations to minimize latency for local users .

City-Wise Distribution

- Karachi – Major commercial hub with multiple large and micro-module data centers.
- Lahore – Hosts several modern facilities with cloud and colocation services.
- Islamabad – Government and enterprise-focused data centers with modular options.
- Faisalabad and other cities – Smaller modular facilities catering to regional businesses .

How to Access Detailed Listings

For a complete list of micro-module and other data centers in Pakistan, including specifications, photos, and services, you can explore:

- Data Center Map Pakistan – Provides a sortable list of 30 facilities and operators .
- Data Center Catalog Pakistan – Offers detailed technical specifications and certifications .
- Neocloud Asia Pakistan Locations – Highlights 22 facilities optimized for performance and reliability . These resources allow you to identify micro-module capable facilities and compare providers based on location, services, and infrastructure features.
