

Nigerian imported ADSS optical cable OS2

Overview

Adss Optic Cable Suppliers & Exporters in Nigeria Nigeria Adss Optic Cable Suppliers Directory provides list of Nigeria Adss Optic Cable Suppliers & Exporters.

Key Takeaways

ADSS (All-Dielectric Self-Supporting) optical cables with OS2 single-mode fibers are available in Nigeria through multiple suppliers and importers, suitable for aerial telecommunications and power line installations. Overview of ADSS OS2 Cables

ADSS cables are all-dielectric, self-supporting fiber optic cables designed for aerial installation without metallic components, allowing them to be installed along power lines safely. The OS2 designation refers to single-mode optical fibers optimized for long-distance transmission with low attenuation, making them ideal for telecommunications, data centers, and utility networks .

Key Features

- Fiber Type: OS2 single-mode, suitable for long-haul and high-speed networks .
- Fiber Count: Commonly ranges from 12 to 432 fibers per cable, depending on supplier and project requirements .
- Construction: Polyethylene or track-resistant outer jacket, torque-balanced aramid yarns, water-blocking systems, and optional gel-filled or gel-free buffer tubes .

- **Span Length:** Designed for spans up to 3500 ft (approx. 1 km), with custom lengths available .

- **Certifications:** Many imported ADSS cables comply with ISO9001, UL, CE, FCC, ROHS, CCC, CPR standards .

Suppliers and Import Options in Nigeria

- **TradeFord Nigeria** lists multiple ADSS cable suppliers and exporters, including **MainOne Cable Company** and **A&F Creative Solutions LTD**, offering both wholesale and project-based supply .

- **Alibaba Suppliers** such as **Oufu** provide imported ADSS cables with flexible minimum order quantities, international shipping, and compliance with global standards .

- **Owire Cable** manufactures and supplies ADSS cables with OEM/ODM options, short lead times, and competitive pricing .

- **Volza Export Data** indicates that imported ADSS cables in Nigeria often come from Vietnam and other international manufacturers, with fiber counts ranging from 24 to 144 fibers .

Applications

- **Telecommunications:** Long-distance fiber optic networks, FTTx deployments, and data center interconnections.

- **Power Utilities:** Installation along high-voltage transmission lines without interference, live-line installation possible.

- **Infrastructure Projects:** Suitable for urban renewal, railway, airport, and 5G communications projects .

Procurement Tips

- **Verify fiber type (OS2)** and fiber count according to your network requirements.

- **Check certifications** to ensure compliance with international and Nigerian standards.

- **Consider span length and environmental conditions** to select the appropriate cable construction (gel-filled vs. gel-free, track-resistant jackets).

- **Engage suppliers** with flexible MOQ and delivery options for imported cables to optimize cost and logistics . Nigerian businesses and project developers can source high-quality imported ADSS OS2 optical cables from both local distributors and international suppliers, ensuring reliable performance for telecommunications and power utility applications.
