

Price of Corrosion-Resistant Cable Trays in Central Asia

Overview

Discover the best prices and detailed specifications for Cable tray corrosion price, with a total of 4 products.

Key Takeaways

Corrosion-resistant cable trays in Central Asia typically range from \$15 to \$120 per meter depending on material, coating, and supplier options.

Corrosion-resistant cable trays are available in powder-coated steel, fiberglass, stainless steel, and galvanized iron, with prices influenced by material, load capacity, and environmental suitability. For example, powder-coated and G.I. ladder-type trays are widely used for indoor and outdoor applications due to their durability and resistance to harsh conditions, with prices generally starting around \$15-\$30 per meter for standard sizes and increasing for heavy-duty or custom configurations (Sai Cable Tray) . Fiberglass trays, which offer excellent corrosion resistance in chemical or high-humidity environments, are typically priced higher, often \$50-\$120 per meter depending on thickness and manufacturer (Alibaba) .

Supplier Options

- Local and regional distributors in Central Asia often provide competitive pricing for bulk orders, with options for OEM or customized trays to meet specific project requirements (Made-in-China) .

- International suppliers such as Alibaba and EC21 list multiple manufacturers offering corrosion-resistant trays with CE certification, including stainless steel, aluminum, and fiberglass options, suitable for industrial installations (Alibaba, EC21) .

- Powder-coated and galvanized trays are preferred for general industrial use due to their balance of cost, durability, and ease of installation (Sai Cable Tray) .

Factors Affecting Cost

- Material Type: Stainless steel and fiberglass are more expensive than powder-coated or galvanized steel.

- Tray Design: Ladder, perforated, or solid-bottom designs affect both price and load capacity.

- Customization: OEM or project-specific dimensions and coatings can increase costs.

- Volume: Bulk purchases often qualify for discounts, reducing per-meter cost.

- Environmental Conditions: Trays designed for outdoor or corrosive environments may include additional coatings or thicker materials, increasing price.

Recommendations

- Request quotes from multiple suppliers to compare pricing and delivery options.

- Consider bulk purchasing to reduce costs if the project requires long runs of cable trays.

- Evaluate material suitability for the local climate and industrial conditions to ensure long-term durability.

- Check for certifications such as CE or ISO to ensure quality standards are met. By considering these factors, buyers in Central Asia can select corrosion-resistant cable trays that balance cost, durability, and installation efficiency.

Cable tray corrosion price Price & Promotion-Ogo 2026 | BigGo Malaysia

Discover the best prices and detailed specifications for Cable tray corrosion price, with a total of 4 products. Visit BigGo now to find

Wholesale Cable Tray

Competitive cable tray products from various cable tray manufacturers and cable tray suppliers are listed above, please select quality

Durable Fiberglass Cable Tray Supplier | Corrosion-Resistant FRP Trays

Find premium fiberglass cable trays from trusted suppliers. Durable, corrosion-resistant FRP solutions for industrial & construction

GFRP Fiberglass Cable Tray System Durable Corrosion Resistant

From corrosion-resistant GFRP rebar and structural profiles to lightweight yet sturdy GFRP gratings, ladders, and cable trays, our

Cable Tray Price List Malaysia — MYToolHub

Affordable cable tray prices in Malaysia. Durable and efficient solutions for cable management and protection. Available in various sizes.

China Cable Tray, Cable Tray Wholesale, Manufacturers, Price

OEM factories often offer cheap cable tray pricing for bulk orders and fast lead times—top choice for distributors seeking custom

Cable Trays Market in Asia-Pacific | Report

The product spectrum ranges from standard ladder-type and perforated trays to more specialized wire mesh and single-rail cable

Anti-Corrosion Heavy-Duty Mesh Cable Trays in Various Specifications

Strong corrosion resistance: The surface of the wire mesh cable tray is often treated with anti-corrosion (such as hot-dip galvanizing,

Cable Tray Price List

The cable tray price list are for hot dip galvanized ladder type cable tray. The price is based on standard length of the

FRP Cable Trays Supplier in Dubai, UAE & Kuwait

Ferrotech FRP Cable Tray system are Manufactured from Glass Armoured thermoset fire retardant resins. Available in different

Complete Guide to Metal Cable Tray Materials in Industrial Applications

In this process, the steel tray is submerged in a bath of molten zinc, which forms a strong, corrosion-resistant barrier

Cable tray

In the electrical wiring of buildings, a cable tray system is used to support insulated electrical cables used for power distribution,

Sai Cable Tray

Our cable trays provide reliable support for extensive network cables, featuring corrosion-resistant, powder-coated finishes for

Cable Tray Protects Cables from Corrosion

Features of cable tray Interference resistance. The insulation structure make it possible to resist the interference. High corrosion

Cable Tray Manufacturer in Pakistan

We provide industrial-grade electrical cable tray systems designed to support, route, and protect power and data cables across
