

Price of hot-dip galvanized ladder cable trays

Overview

Choose from our selection of ladder cable trays, including cable and hose trays, heavy duty open cable and hose carriers, and more.

Key Takeaways

Hot-dip galvanized ladder cable trays typically range from \$15 to \$50 per meter, depending on size, thickness, and order quantity.

Pricing Overview

The price of hot-dip galvanized (HDG) ladder cable trays varies based on width, thickness, and material quality. For example, standard widths of 150mm, 300mm, 450mm, and 600mm are commonly available, with steel thickness ranging from 1.3mm to 2.5mm. Smaller trays for light-duty applications are priced at the lower end, while larger, heavy-duty trays suitable for industrial installations cost more. Bulk orders can reduce the per-meter cost, and manufacturers often provide OEM customization and free samples for evaluation.

Supplier Examples

- Jiangsu Holdee Electric Co., Ltd offers HDG ladder trays with thicknesses of 1.3–2.5mm, suitable for indoor and outdoor use. They emphasize high corrosion resistance and fast production, with the ability to produce hundreds of tons per month. Prices are competitive due to their in-house galvanizing plant.

- JLH Electric provides HDG cable ladders with prefabricated C-channel structures and parallel transverse rungs for maximum ventilation. Their products are engineered for high cable density environments and are suitable for commercial and industrial applications . Pricing depends on size, form, and fittings.

- Alibaba and Made-in-China listings indicate that HDG ladder trays are available in various configurations, including single-run, two-tier, and enclosed designs, with prices reflecting load capacity, ventilation, and environmental protection requirements .

Factors Affecting Price

- Tray Width and Height – Wider trays for larger cable bundles cost more.
- Steel Thickness – Thicker steel increases durability and price.
- Length per Unit – Standard lengths are usually 2–3 meters; longer lengths may reduce per-meter cost.
- Order Volume – Bulk orders often receive discounts.
- Customization – Special bends, tees, or risers may increase cost.
- Delivery and Shipping – International shipping from China may add to the total cost.

Recommendation

For accurate pricing, it is recommended to contact suppliers directly with your specifications, including tray width, thickness, length, and quantity. Suppliers like Jiangsu Holdee Electric and JLH Electric can provide formal quotations and lead times for bulk orders . This ensures you receive the most current and competitive pricing for your project.
