

Price of installing cable trays on the top surface

Overview

Basic cable tray systems cost \$3-15 per foot depending on type and material. Installation labor adds \$5-8 per foot to total project costs. Ladder trays typically cost 20-30% less than solid bottom systems. Bulk orders of 1000+ feet can reduce unit pricing by 15-25%. Regional variations. Basic cable tray systems cost \$3-15 per foot depending on type and material. Installation labor adds \$5-8 per foot to total project costs. Ladder trays typically cost 20-30% less than solid bottom systems. Bulk orders of 1000+ feet can reduce unit pricing by 15-25%. Regional variations. Ladder type cable trays are built for heavy-duty routing. They cost more upfront, but they handle load and heat without complaint. In power-heavy areas, they prevent failures that would be far more expensive than the tray itself. Perforated cable trays sit in the middle. The average cable tray price per meter ranges from \$2 to. Cable trays are vital in electrical installations, providing secure pathways for power, communication, and control cables across residential, commercial, and industrial settings.
