

Price of steel trough-type cable trays

Overview

Cord Troughs | McMaster-Carr Choose from our selection of cord troughs, including cable and hose trays, steel formable cable and hose trays, and more. Same.

Key Takeaways

Steel trough-type cable trays are available in various sizes and materials, with prices typically ranging from \$20 to \$150 per meter depending on specifications and supplier. Supplier Options and Pricing

- Hesheng Group Co., Ltd. Hesheng offers galvanized steel trough-type cable trays with a variety of sizes and materials including aluminum alloy, stainless steel, HDG, SGCC, FRP, and high polymer alloy for corrosive environments. Prices vary based on material, width, and load capacity, generally starting around \$20-\$50 per meter for standard galvanized steel trays and higher for specialized or corrosion-resistant models . They provide international shipping and custom orders.
- Shilden Strut Offers a range of trough cable trays suitable for industrial, commercial, and data center installations. Pricing is competitive, but exact costs depend on tray dimensions and order quantity. They emphasize quality and durability, with options for solid or partially enclosed bottoms to protect cables .
- McMaster-Carr Provides over 850 cable tray products, including steel trough trays. Prices vary widely depending on size, material, and finish. McMaster-Carr offers same-day or next-day delivery, which can be convenient for urgent projects .

- Legrand / Cablofil Cablofil steel trough trays are designed for high security and strength, ideal for installations where cable access must be limited. Pricing is typically higher due to premium quality and specialized design, often in the range of \$50-\$150 per meter depending on specifications .
- Graybar Offers a variety of cable trays including solid-bottom, trough, ventilated, and ladder trays. Pricing is ZIP code dependent, so users need to enter their location to view exact costs. Graybar also provides compatible fittings for complete cable tray systems .

Key Considerations

- Material: Galvanized steel is standard; stainless steel or polymer trays are more expensive but offer corrosion resistance.
- Size and Load Capacity: Wider trays or those designed for heavy loads cost more.
- Fittings and Accessories: Elbows, tees, and supports may add to the total cost.
- Shipping and Location: Prices can vary based on supplier location and shipping requirements. For accurate pricing, it is recommended to contact suppliers directly with your project specifications, including tray width, length, material, and quantity. Hesheng Group provides a detailed price list online and can accommodate custom orders for international clients .
