

Price per unit of Italian galvanized cable trays

Overview

Cable Tray Price Per Meter 2026: Market Trends Discover the latest cable tray price per meter in 2026, including steel, wire mesh, and aluminum tray costs.

Key Takeaways

Italian galvanized cable trays typically range from €30 to €80 per 2–2.5 meter section, depending on type, load capacity, and customization.

Italian manufacturers such as Schiavetti Tekno (Spina Group), FEMI-CZ, and other local suppliers produce high-quality galvanized cable trays suitable for industrial, civil, and infrastructure projects. These trays are made from hot-dip galvanized steel, providing excellent corrosion resistance and durability for both indoor and outdoor applications. They are available in various types, including ladder, perforated, solid-bottom, and wire-mesh trays, with lengths typically ranging from 2 meters to 6 meters.

Pricing

- Standard hot-dip galvanized ladder-type trays (approx. 2.4 meters) are priced around €30–€50 per section.
- Perforated or solid-bottom trays with higher load capacity or custom dimensions may cost €60–€80 per section.

- Custom sizes or specialized finishes (e.g., for naval or oil & gas applications) can increase the price further, depending on project requirements . Additional costs may include fittings, brackets, and accessories, which are typically priced per unit and vary by manufacturer and tray type .

Considerations

- Load capacity and duty rating: Light, medium, or heavy-duty trays affect pricing.
- Environmental exposure: Outdoor or corrosive environments may require thicker galvanization or specialized coatings.
- Compliance: Italian trays often meet EN and UL standards, ensuring quality and safety .
- Installation: Pre-fabricated lengths and perforated designs can reduce labor costs during installation . For precise pricing, it is recommended to contact Italian suppliers directly to request a quote based on your project specifications, including tray type, length, and required accessories. This ensures accurate cost estimation and availability.
