

Revit cable tray markings

Overview

Cable Tray Size Separator - Specifies the symbol to be used in showing cable tray sizes. In Revit we can only use cable tray in both forms below: But I would like to represent it like this: Is there a way I can do that?

In preference, I don't want to use filters, and I would like to show the perforations in every view. The EAE Cable Tray plugin allows users to employ EAE Electric's cable tray products in their Autodesk® Revit® projects using the most up-to-date data. Cable trays help keep complex technology systems safe and secure without detracting from the appearance of the surrounding environment. From industrial cable management systems to office environments, houses of worship, and even performance. Metsec offer complete cable tray systems from 12mm to 50mm deep and 50mm to 900mm wide, all with a wide range of accessories. Materials and finishes available are mild steel pre galvanised as standard with mild steel hot dip galvanised after manufacture and stainless steel grade 1.
