

Suriname Optical Fiber Cable Manufacturer

Overview

suriname-optical-cable-brands Manufacturer/Producer Optical Fiber Manufacturing. Lightmax SL is a company founded in 2007, specialized in the manufacturing.

Key Takeaways

Global manufacturers like Corning, Prysmian, CommScope, Sumitomo, Fujikura, AFL, and Shenzhen Necero supply high-quality optical fiber cables suitable for communication networks in Suriname. Leading Global Manufacturers

- Corning Inc.: A U.S.-based pioneer in optical fiber technology, Corning produces low-loss, high-purity glass fibers and fiber optic cable assemblies for telecommunications, data centers, and submarine networks. Their products are widely used worldwide, including in South America, and they focus on R&D and advanced fiber solutions for high-speed communication networks .
- Prysmian Group: Headquartered in Italy, Prysmian is the largest cable manufacturer globally, offering optical fibers, fiber optic cables, and connectivity solutions. They operate in over 50 countries and provide long-haul, submarine, and fire-resistant fiber cables suitable for telecom infrastructure in Suriname .
- CommScope: A U.S.-based company specializing in fiber optic infrastructure for enterprise networks, broadband access, and telecom backbones. CommScope supplies both indoor and outdoor fiber optic cables and is known for BEAD-ready and Buy American-compliant products, which may be relevant for government or large-scale projects .

- Sumitomo Electric: A Japanese manufacturer producing ultra-low-loss fibers and high-density multi-core cables. Their products support high-capacity networks and are suitable for future-proofing communication infrastructure .
 - Fujikura: Another Japanese company, Fujikura manufactures reliable fiber optic cables with advanced splicing tools and high-density ribbon cables, widely used in telecommunications and industrial applications .
 - AFL: Based in South Carolina, AFL provides fiber optic cables, connectors, and test equipment for telecom and industrial sectors. Their solutions are suitable for broadband providers and utility networks .
 - Shenzhen Necero Optical Fiber and Cable Co., Ltd.: A Chinese manufacturer specializing in optical fiber and cable products for telecommunications enterprises, offering competitive solutions for international markets including South America .
- Considerations for Suriname

While Suriname may not have local fiber optic cable manufacturers, these global suppliers can provide cables through regional distributors or import channels. When selecting a manufacturer, consider:

- Cable type: Single-mode for long-distance communication, multimode (OM4/OM5) for data centers or shorter runs.
- Compliance: Ensure cables meet international standards and local regulatory requirements.
- Support and installation: Some manufacturers offer technical support, training, and installation services through regional partners. By sourcing from these established global manufacturers, Suriname can access high-performance optical fiber cables suitable for expanding broadband, 5G, and enterprise communication networks .
