

The outdoor distribution box is made of stainless steel

Overview

Stainless Steel Distribution Box | Outdoor Weatherproof Enclosure
The SUS304 series outdoor distribution box is a professional weatherproof electrical enclosure.

Key Takeaways

Outdoor distribution boxes made of stainless steel offer high durability, corrosion resistance, and protection against dust and water, making them ideal for harsh outdoor environments.

Material and Durability

Outdoor distribution boxes are commonly constructed from SS304 or SS316 stainless steel. SS304 provides good corrosion resistance and mechanical strength, suitable for general outdoor and industrial conditions, while SS316 (marine grade) includes molybdenum, enhancing resistance to chlorides, salt spray, and harsh coastal or high-moisture environments. Stainless steel enclosures are resistant to rain, dust, UV radiation, and mechanical impact, ensuring long-term reliability.

Waterproofing and IP Ratings

These boxes typically feature IP65, IP66, or higher ratings, indicating protection against dust and water jets or heavy rain . IP66-rated boxes are dust-tight and can withstand powerful water jets, making them suitable for outdoor installations exposed to rain, sprinkler systems, or industrial washdowns . Proper sealing, such as PU strips on doors, ensures water and dust do not penetrate the enclosure .

Design and Features

Outdoor stainless steel distribution boxes often include:

- Inner and outer doors for added protection and security
- Mounting panels for organizing electrical components
- Cable outlets at the base for easy wiring
- Smooth door rotation and wide opening angles for maintenance access
- Customizable options for OEM/ODM projects, allowing adaptation to specific industrial or commercial needs

Applications

These enclosures are widely used in:

- Industrial and commercial power distribution
- Residential and garden irrigation systems
- Transportation hubs, schools, hospitals, and shopping centers
- 5G base stations and data forwarding points

Summary

A stainless steel outdoor distribution box provides robust protection for electrical equipment, combining corrosion resistance, waterproofing, and mechanical durability. Choosing the appropriate stainless steel grade (SS304 vs SS316) and IP rating ensures longevity and safety in specific environmental conditions, from general outdoor use to high-moisture or coastal areas .

Stainless Steel Distribution Box | Outdoor Weatherproof Enclosure

The SUS304 series outdoor distribution box is a professional weatherproof electrical enclosure manufactured from genuine 304

The secret of outdoor distribution boxes: how stainless steel ...

Outdoor distribution boxes are the "invisible guardians" in the power system. especially in humid or harsh environments, a high

Lockable Outdoor Electrical Distribution Box

Crafted from high-quality stainless steel, this electrical shell box is engineered to withstand extreme weather

Stainless Steel Outdoor Distribution Box

Stainless Steel Distribution Box with Inner-Outer Door is constructed by bending and welding SUS304 stainless steel plates,

Power Distribution | Outdoor Power Units & Bollards | Kent Stainless

We are the world's no.1 manufacturer of in-ground power distribution units. Our products are customized, made with high-quality

Outdoor Stainless Steel Distribution Box Electrical Junction ...

1.Sturdy structure: The electrical box is made of stainless steel precision cutting and welding, which provides superior wear

Outdoor type low voltage stainless steel distribution box

Discover our premium outdoor low voltage stainless steel distribution box, crafted from durable SS316

Outdoor Waterproof Power Distribution Box

Discover our Outdoor Waterproof Power Distribution Box, expertly crafted from durable Stainless Steel

Stainless Steel Enclosures | Stainless Steel Electrical Boxes

Manufactured from 304 stainless steel, they're a top enclosure choice for corrosion-resistant, waterproof and weatherproof

Electrical Enclosures & Outdoor Electrical Boxes | Polycase

Outdoor electrical boxes are available in stainless steel, carbon steel, aluminum, and polycarbonate, making them ideal for a wide

Stainless Steel Electrical Enclosures & Boxes | Delvalle

Manufacturer of custom stainless steel electrical enclosures and boxes: AISI 304/316, IP65/IP68 and

Outdoor Waterproof Power Distribution Box

Discover our Outdoor Waterproof Power Distribution Box, expertly crafted from durable Stainless Steel

Stainless Steel Enclosures | Stainless Steel Electrical

Stainless steel electrical enclosures provide protection in indoor and outdoor applications as well as an

Weatherproof Outdoor Enclosures for Exterior Use | Delvalle Box

Bespoke outdoor weatherproof enclosures for exterior use, with sealing, anti-corrosion warranty, cooling and durability for electrical

Outdoor In Ground Power Box | Weatherproof | Kent Stainless

Kent Stainless" in-ground power box units are used to provide temporary power supply for outdoor markets that may have some

Outdoor/Indoor Electrical Junction Box, Stainless Steel ...

The electrical enclosure is made of wear-resistant and rust-resistant stainless steel, which can be widely used in indoor and outdoor

Determine the type of distribution box according to the use

There are two types of stainless steel distribution box according to the use environment: outdoor box and indoor box.

Internal Structure of Distribution Box

Internal Structure of a distribution box Enclosure and Mounting Structure The enclosure

Weatherproof Outdoor Distribution Boxes: Key Design Insights

Weatherproof outdoor distribution boxes ensure reliable power distribution in challenging environments by protecting against

Outdoor rainproof stainless steel distribution box

Product description Outdoor rainproof stainless steel distribution box is a kind of distribution box specially designed for outdoor

Electrical Boxes Outdoor/Indoor Electrical Enclosure Box, Stainless ...

UPGRADED AND REINFORCED STRUCTURE: The electrical box is made of professional 304 stainless steel with a polished

Weatherproof Stainless Steel Distribution Box IP-Rated

Our distribution boxes are made of thickened stainless steel with good high-temperature resistance, which can withstand the long

Metal Enclosures, Cabinets & Box Manufacturer
