

What are some manufacturers that provide after-sales service for electrical distribution boxes

Overview

Switchgear maintenance companies | switchgear testing | EatonOur team has experience with electrical power distribution equipment from all leading manufact.

Key Takeaways

Eaton, ABB, RESA Power, Wesco, and CBS are key manufacturers and service providers offering comprehensive after-sales support for electrical distribution boxes.Eaton

Eaton provides extensive after-sales services for electrical distribution systems, including startup and commissioning, preventive maintenance, emergency response, troubleshooting, and system upgrades. Their field service engineers and technicians are available 24/7 and can support equipment from all leading manufacturers. Eaton also offers predictive diagnostics, remote services, and embedded engineer programs to optimize system performance and extend equipment lifespan, ensuring safety and reliability across industrial and commercial installations .

ABB

ABB supports after-sales service through a global network of channel partners, including distributors, system integrators, panel builders, and service providers. Authorized ABB Value Providers deliver technical expertise, local support, and maintenance services that meet ABB's rigorous standards. Customers can access installation, commissioning, troubleshooting, and energy management solutions, ensuring reliable operation of ABB electrical distribution equipment .

RESA Power

RESA Power Components Group offers equipment testing, repair, replacement, and preventive maintenance for electrical distribution systems. With over 40 locations across the U.S. and Canada, RESA Power provides rapid access to components, technical support, and specialized services for critical facilities such as data centers and hospitals. Their technicians and engineers have in-depth knowledge of specialty distribution systems, ensuring minimal downtime and efficient service .

Wesco

Wesco provides electrical distribution and supply chain services, including after-sales support for installed systems. Their services cover equipment maintenance, technical support, and supply chain solutions, helping businesses maintain reliable and efficient electrical infrastructure. Wesco's global presence ensures access to both products and service expertise across multiple regions .

CBS (Circuit Breaker Sales)

CBS offers remanufacturing, reconditioning, and repair services for all types of electrical equipment, including switchgear, panelboards, and motor control centers. Their services include component replacement, testing, preventive maintenance, and emergency support. CBS also provides retrofit and upgrade solutions, reverse engineering for obsolete equipment, and full documentation to ensure optimal performance. All new or remanufactured equipment comes with a one-year parts and labor warranty, and their technicians are certified to handle low- and medium-voltage systems . These manufacturers and service providers ensure that electrical distribution boxes remain safe, reliable, and efficient, offering both routine maintenance and emergency support to minimize downtime and extend equipment life.
