

Where are the fiber optic cable manufacturers for Western European telecommunications

Overview

Top 15 Fiber Optic Cable Companies in Europe 2026A 2026 ranking of the top 15 fiber optic cable companies in Europe — Prysmian, Nexans, Nokia, Leoni, Acome.

Key Takeaways

Western Europe hosts several leading fiber optic cable manufacturers, including Prysmian Group (Italy), Nexans (France), Leoni (Germany), HUBER+SUHNER (Switzerland), and Draka (Netherlands), serving telecom and data network needs. Key Manufacturers and Locations

- Prysmian Group (Italy): Headquartered in Milan, Prysmian is the world's largest cable manufacturer, producing everything from glass preforms to finished fiber optic cables, including submarine and high-density cables for 5G and FTTH networks .
- Nexans (France): Based in Paris, Nexans specializes in FTTH, submarine, and industrial telecom cables, with a strong focus on sustainability and compliance with European fire standards .
- Leoni (Germany): Located in Nuremberg, Leoni provides fiber optic solutions for automotive, industrial, and telecom sectors, including high-performance optical fibers and cable assemblies .

- HUBER+SUHNER (Switzerland): Headquartered in Switzerland, this company delivers high-quality fiber optic products for telecommunications, transportation, and data centers, emphasizing reliability and innovation .
- Draka (Netherlands, part of Prysmian Group): Draka manufactures multimode and micro cables for broadband and industrial applications, with a strong presence in the Dutch and broader European market .
- Hexatronic (Sweden): Known for air-blown fibers and durable cables suitable for harsh climates, Hexatronic supports rapid deployment of telecom networks .
- Furukawa Electric Europe (Hungary/Europe): Japanese-based Furukawa has European operations supplying ribbon cables and submarine systems for telecom networks .
- Corning (Germany/Poland) and OFS (Denmark): Global companies with European facilities providing specialized fibers like SMF-28 Ultra and G.652.D fibers for data centers and telecom networks .
- WEINERT Industries AG (Germany): Offers singlemode, multimode, and radiation-hard fibers, as well as polymer optical fiber (POF) and hybrid cables for specialized applications .
- Tratos Group (Italy): Produces fiber optic cables for industrial, residential, and subsea applications, emphasizing R&D and sustainability .

Market Focus and Capabilities

These manufacturers support a wide range of telecommunications applications, including:

- FTTH deployments for high-speed residential internet
 - 5G network infrastructure with high-density and low-loss fibers
 - Submarine and long-haul cables for international connectivity
 - Data center interconnects with high-performance optical fibers
 - Specialty and hybrid cables for industrial and harsh environments
- European manufacturers are increasingly adopting eco-friendly production practices and complying with EU standards for fire safety, low-loss performance, and sustainability .

Summary

Western Europe's fiber optic cable industry is dominated by a mix of regional leaders like Prysmian, Nexans, and Leoni, and global players with European operations such as Corning, OFS, and Furukawa. These companies provide comprehensive solutions for telecom operators, data centers, and industrial networks, ensuring high-quality, reliable, and sustainable fiber optic infrastructure across the region .
